EDUCATION

Sreenidhi Institute of Science and Technology , Hyderabad	Expected May 2026
B.Tech in Computer Science Engineering	CGPA: 7.94
Narayana Junior College	2022
Class XII, Telangana Board	971 Marks

TECHNICAL SKILLS

Programming: Python, Java, C
Web Technologies: HTML, CSS, JavaScript, PHP
Databases: MySQL, SQL
Machine Learning: Scikit-learn, Pandas, NumPy, NLP
Tools: Git, AWS, Power BI
Core Concepts: Data Structures, OOP, Operating Systems

PROJECTS

AI-Based Emotion Detection Web Application <i>Python, NLP</i> - Developed ML-powered web application to classify user emotions from textual input. - Implemented NLP preprocessing and trained Scikit-learn models for emotion classification.	GitHub
Liver Disease Prediction Model <i>Python, Scikit-learn</i> - Built and evaluated classification models to predict liver disease using patient data. - Performed feature engineering and model comparison to improve prediction accuracy.	GitHub
Full Stack Movie Ticketing System <i>PHP, MySQL, JavaScript</i> - Designed responsive movie booking platform with seat selection and admin dashboard. - Developed backend booking logic and normalized MySQL database schema.	GitHub
SQL Sales Data Analysis <i>MySQL</i> - Analyzed transactional sales data using advanced SQL queries (JOIN, GROUP BY). - Identified revenue trends and top-performing products.	GitHub

TRAINING

BeingZero Placement Training	Jul 2024
Completed structured training covering Data Structures, Algorithms, problem-solving techniques, and mock interview preparation.	

INTERNSHIPS

- AI-ML Virtual Internship – Eduskills (10 Weeks)
- AWS Academy Cloud Virtual Internship – Eduskills (10 Weeks)

CERTIFICATIONS

- Python Essentials – Cisco Networking Academy
- AI Fundamentals – IBM SkillsBuild
